Ju Li, Chow

Developer

Versatile professional with a background in payroll outsourcing, project management, and sustainability in a Big 4 industry. Overseas experience for a life insurance company, bringing a global perspective to my work. Eager to transition into the technology field to stay abreast of emerging trends and apply my skills in driving innovation and business growth.

Experience

Full Stack Developer

Chingu | US | Oct 23' to Current (Seasonal)

- Utilizing agile methodologies to manage projects and ensure on-time delivery.
- Actively participating in weekly sprints for progress updates, issue identification, and solution brainstorming.
- Collaborating with team remotely to develop and launch full-stack projects, utilizing technologies such as TypeScript, Next.js, ORM, PlanetScale, HTML and Tailwind.

Full Stack Developer

CodeOp | ES | Jan 23' to Jul 23'

- 6 months part time bootcamp covering full stack technologies: JavaScript ES6+, React.js, ReactContext API, Node/Express and MySQL, HTML and CSS
- Built 3 full stack projects: an MVP, a Feature Extension and a Group Project

Group Project - Friendly Food Finder <Live Preview>

- Allergen-friendly app
- Main features: with user **authentication**, favorite restaurant saving, and PDF download capabilities.
- **Integrated APIs** such as Google Translation, React Email, and Google Places to enhance user experience
- Built with React.

Feature Extension - MedApp <Live Preview>

- Medication management app targeting older individuals with chronic conditions.
- Implemented features on top of legacy code: medication reminders, distinct views, time and date display, close, edit, and update buttons for medical cards.
- Built with Vue.

MVP - Ezform <Live Preview>

- App **addressing pain points** for vendors and payroll vendors: simplified the employee onboarding process by allowing incoming employees to fill in information in advance and generate downloadable forms, **eliminating** the need for **manual scanning** and submission.
- Built with React.

Experience

Senior Consultant, Business Transformation

KPMG | MY | Apr 23' to Aug 23'

- Successfully **implemented a global shared services** setup for a pharmaceutical company, managing the entire RM2.5 million project life cycle.
- Facilitated and led PPLS service line meetings and workshops as needed, often involving **cross-functional teams** at the global and/or regional level.
- Assisted cash management industry in **implementing Microsoft Power Automate** for financial automation processes.

Senior Consultant, Payroll Outsourcing

KPMG | MY | Jul 22' to Mar 23'

- Software administrator: maintaining the payroll software up to date and **troubleshooting problems** together with the payroll teams.
- **Implemented Payroll setup** for outsourcing client's payroll processes which includes system and functionality evaluation, customization and data migration.
- Oversaw bank reconciliation, internal billing and invoicing to clients and vendors.
- **Ensured client happiness** by designing a standard workflow, answering questions, troubleshooting issues and providing them with the right access to our services.
- Assisted in **payroll audit** by assessing the accuracy of an energy industry's payroll liabilities (e.g. reviewed MTD/EPF calculation, payroll wage codes, social security obligations) and proposed potential recommendations for the company to optimise control of Payroll related processes.

Consultant, Payroll Outsourcing

KPMG | MY | May 21' to Mar 23' & Dec 21' to Jun 22'

- **Efficiently** process payroll for compliance with all regulations, encompassing **end-to-end payroll management** for 800 employees. Services include statutory registration, precise calculation and timely payment of salaries and contributions and overtime.

Consultant, Governance & Sustainability

KPMG | MY | Sep 21' to Nov 21'

- Contributed to **bringing new clients** by developing targeted proposals and training programs (e.g Sustainable Finance, Climate Change, Human Rights).
- Increased changes of success for our product by running competitor analysis: performed **benchmarking client companies against leading firms from various sectors**, including property, pharmaceutical, real estate investment trust and large conglomerates based on sustainability frameworks and guideline (FTSE4Good, GRI, DJSE, UN SDGs).
- Supported a comprehensive forced labor assessment of a palm oil plantation in accordance with International Labour Organization (ILO) guidelines, contributing to the identification and mitigation of labor exploitation risks.
