Ju Li, Chow

Full Stack Developer

Versatile professional with a background in payroll outsourcing, project management, and sustainability in a Big 4 industry. Overseas experience for a life insurance company, bringing a global perspective to my work. Eager to transition into the technology field to stay abreast of emerging trends and apply my skills in driving innovation and business growth.

Experience

Full Stack Developer

CodeOp | ES | Jan 23' to Jul 23'

- 6 months part time bootcamp covering full stack technologies: JavaScript ES6+, React.js, ReactContext API, Node/Express and MySQL, HTML and CSS
- Built 3 full stack projects: an MVP, a Feature Extension and a Group Project

Group Project - Friendly Food Finder <Demo>

- Allergen-friendly app
- Main features: with user **authentication**, favorite restaurant saving, and PDF download capabilities.
- **Integrated APIs** such as Google Translation, React Email, and Google Places to enhance user experience
- Built with React.

Feature Extension - MedApp <Demo>

- Medication management app targeting older individuals with chronic conditions.
- Implemented features on top of legacy code: medication reminders, distinct views, time and date display, close, edit, and update buttons for medical cards.
- Built with Vue.

MVP - Ezform <Demo>

- App **addressing pain points** for vendors and payroll vendors: simplified the employee onboarding process by allowing incoming employees to fill in information in advance and generate downloadable forms, **eliminating** the need for **manual scanning** and submission.
- Built with React.

Senior Consultant, Business Transformation

KPMG | MY | Apr 23' to Aug 23'

- Successfully **implemented a global shared services** setup for a pharmaceutical company, managing the entire RM2.5 million project life cycle.
- Facilitated and led PPLS service line meetings and workshops as needed, often involving **cross-functional teams** at the global and/or regional level.
- Assisted cash management industry in **implementing Microsoft Power Automate** for financial automation processes.

Awards

Citizen Developer Case
KPMG | 3rd Place Winner
Nov 22' - Malaysia

Values Spot Award
KPMG
May 22' - Malaysia

Consultant, Payroll Outsourcing

KPMG | MY | May 21' to Mar 23' & Dec 21' to Jun 22'

- **Efficiently** process payroll for compliance with all regulations, encompassing **end-to-end payroll management** for 800 employees. Services include statutory registration, precise calculation and timely payment of salaries and contributions and overtime.

Consultant, Governance & Sustainability

KPMG | MY | Sep 21' to Nov 21'

- Contributed to **bringing new clients** by developing targeted proposals and training programs (e.g Sustainable Finance, Climate Change, Human Rights).
- Increased changes of success for our product by running competitor analysis: performed **benchmarking client companies against leading firms from various sectors**, including property, pharmaceutical, real estate investment trust and large conglomerates based on sustainability frameworks and guideline (FTSE4Good, GRI, DJSE, UN SDGs).
- Supported a comprehensive forced labor assessment of a palm oil plantation in accordance with International Labour Organization (ILO) guidelines, contributing to the identification and mitigation of labor exploitation risks.
- Conducted impactful benchmarking analysis on sustainability and climate reports within the banking industry, enabling informed decision-making and facilitating improvements in corporate sustainability practices.

Experience

Product Actuarial Analyst

Global Atlantic Financial Group | US | Apr 20' to Dec 20'

- Developed key story improved the process of life insurance management by conducting thorough research on premium and underwriting calculations, resulting in valuable contributions towards **process enhancements**.
- Ensured clear communication with internal and external clients by designing and maintaining product data.

Student Assistant

Drake University International Center| US | Jan 18' to May 19'

- **Supported students growth** by connecting them with various University departments, helping them with administrative duties and evaluating their assessment tests during orientation programs.

Forensic Consulting Intern

PwC | MY | Jun 18' to Aug 18'

- Assisted in audit and consulting within the Forensics Department in order to **identify, mitigate and reconcile fraudulent accounting** for companies in various industries (e.g. airlines, real estate, retail).
- Placed for crossover between 3 services lines: Data Analytics, Global Intelligence Operations Center and Core Services.
- Conducted research (e.g. cost analysis, etc.), compiled data, prepared reports and presentations for clients related to **mobile relativity** (i.e. data extraction from technology software) and **forensics imaging**.
- Involved in projects on cyber threat management and cyber incident response.

Financial Operations Analyst

Global Atlantic Financial Group | US | Jul 16' to May 17'

- **Prevented discrepancies** in premium payments by tracking daily reports.
- Improved work process by automating the process and eliminating errors which led to **saving 10 hours of work per week**.
- Trained and mentored new team members on the day-to-day process.

Constituent Assistant Intern

Iowa Center for Economic Success| US | Jan 16' to May 17'

- **Prepared tax returns for low-income individuals** through VITA (Volunteer Income Tax Assistance) Certification, ensuring access to tax benefits and financial resources.
